Subject: Comments on the DuPont Slides Are Attached
Attachments: Parkersburg Area PFAS Sampling Team comments V2.pptx

Hi Andy,

Thank you for making the PowerPoint of DuPont data. Many of the slides are very interesting. However, the team has a few comments that we think will make the slides easier to understand and I attached those comments. The comments can be found as bubbles on the slides and I believe they will appear in the right margin when you are not viewing the slides as a slide show.

Please let us know when you would like to have the internal EPA meeting to discuss the slides. Please invite all of the people on this e-mail.

Finally, please let me know that you received this e-mail with the attachment as the file is about 27 MB and I want to make sure it went through.

Thank you,
Jenny
